We design, manufacture, supply and distribute fans and gas handling equipment for industries, dust control and our products help to maintain an environment free of harmful dust and emissions. The company was founded in 1964 by Mr J Mahajan and his son Mr Vijay Mahajan, with production of industrial fans and air blowers being its original activity. The company was renamed ACC Industries Ltd and production facilities were transferred to India for manufacturing and supply of products. The company diversified into many areas of products, including fire resistant clothing, fire extinguishers and furniture. The company diversified into home appliances as well. Many of its products were awarded with good quality, good design and competitive price. In 1996, ACC Industries Ltd became a public company with shares listed on the Bombay Stock Exchange (BSE). In 2000, the company distributed a subsidiary, ACC Industries (R&D) India, with a specialization in dusting and filtration equipment and one of the biggest air filtration systems supplier in India. This division has also won many awards for dust control products. In 2003, the name of the company was changed to ACC Industries Ltd, and the company entered the home appliance manufacturing and supply segment with the acquisition of Ramco Electronics Limited (REL) in 2003, to further expand into the home appliance market, a new segment for ACC Industries Ltd. The company also established a new factory in 2004, the ACC Industries Ltd Export Plant, with a production capacity of 1.2 million pounds of industrial fans per annum. This was supplemented by a new factory in 2007, ACC Industries Ltd Export Division with a production capacity of 2.4 million pounds of industrial fans per annum. In 2011, the company was privatized and began doing business under the name ACC Industries Ltd. In 2007, ACC Industries Ltd acquired industrial fans manufacturer Go 82157476af
